

# CROSS ROADS

## Sweet slogans

Food can be a fun way to get someone's attention! Tie a safety message to a piece of candy or put some in a bowl to draw people to an information table. Here are some seat belt safety ideas that you might use for common candies:

Be a smartie – buckle up.

Yeah, it's corny, but seat belts DO save lives.

Don't be a dum-dum - wear your seat belt!

Don't be an airhead – buckle up.

Seatbelts are lifesavers.

So, what could you do with these?
